

## VERSO PAPER MILL MONORAIL

### PROJECT DESCRIPTION:

In order to facilitate the replacement of a critical and substantial element of the paper machine, a rail system was devised to hoist the component up and translate out of the building, with tight clearances and high capacities.

**VALUE: \$125,000**

### PROJECT LOCATION:

Jay, Maine

### SERVICES PROVIDED:

Structural Design of Monorail for rigging, CADD Drawing and 3D Rendering to mitigate space limitations and interferences with immovable building components.

### SIZE:

800 SF

### CLIENT:
